THE SPADINA THEATRE

Technical information – Rider.

The Multifunction Room (MFR) is composed of:

A 9m by 5.4m Platform

147 seats fix theatre folding seating in a raiser style

2 dressing rooms

1 Bathroom for artist

A FOH location for Audio and Lighting control

One TD location

AUDIO

The sound reinforcement system is capable of multiple configurations ranging from stereo to Surround 5.1 with programmable DSP and Dolby/DTS decoder.

To help support vocal articulation front fill loudspeakers are built into the front of the Platform. Subwoofers are located under the Platform. Surround loudspeakers are located around the room; they can be used during cinema, presentation and live mode.

There are multiple interconnections for the audio and Intercom throughout the MFR.

The program sound signal is fed to the paging, intercom, and hearing assist systems.

VIDEO

The Projector is located at the back of the room in an acoustic enclosure with air supply and air return.
